## Title: Updated Draft 2014 IECEx Budget, for submission to CAB

# **Circulated to: IECEx Management Committee, ExMC**

# INTRODUCTION

During the Calgary 2012 meeting of the IECEx Management Committee, ExMC, document ExMC/787/CD (Draft Forecasted 2014 and 2015 Budgets) was considered and endorsed for 2014 subject to the results of the 2012 end of year accounts, refer ExMC confirmed minutes ExMC/819/RM.

Following receipt of the 2012 IECEx end of year financial results, in February 2012, the IECEx Treasurer and Secretary are pleased to inform Members of an excellent end of year result which achieved an end of year contribution to the IECEx General Reserves of CHF 105'930.

The IECEx General reserves, as at the end of 2012 sits at CHF 999'983.

In receipt of the 2012 end of year results, a review of the 2014 Draft forecast budget detailed in ExMC/787/CD was undertaken by the Treasurer and Secretary.

Given the 2012 end of year results and taking into account the approved 2013 Budget, the review has resulted in very minimal alteration to the draft 2014 budget presented and accepted at the 2012 ExMC Calgary meeting.

With this review now completed an updated draft budget 2014 is now submitted for final approval by ExMC, (Column D of Annex A), prior to being submitted for CAB Approval .

This draft budget includes both summary and specific explanations along with Annex A with the budget amounts and Annex B the annual fees calculations, as at February 2013.

As also reported during the Calgary ExMC 2012 meeting, IEC procedures for the approval of budgets for all activities of the Commission require the finalizing of next years IEC System's budgets by end of March 2013 for submission to CAB. This requirement is outlined in CAB document CAB/768/Inf.

While the External auditors have successfully completed their audit of the 2012 IECEx accounts the auditor's report is not yet available. Therefore to assist IECEx Members, Column A to the Table in Annex A has been provided to show the end of year figures for 2012, as confirmed by the auditors.

Following a final review of the 2012 Calgary ExMC endorsed 2014 draft long range budget, the Treasurer and Secretariat provide this document for a final approval by ExMC Members.

We would therefore appreciate you returning the completed voting form to the IECEx Secretariat by the closing date of 26 March 2013.

Should you have any questions concerning this final updated version (e.g. items in Column D to Annex A) please feel to contact me.

We thank you in respecting the closing date for voting to enable us to have a final budget ready for forwarding to the IEC Conformity Assessment Board, CAB by the due date.

## **Overview:**

This draft budget is presented with explanations to budget items and the following two Annexes:

- > Annex A 2014 Draft Budget details (and includes 2012 end of year audited results)
- Annex B Details of annual dues calculations, as at February 2013

### Annex A is presented with the following columns

A = The end of year 2012 accounts as confirmed by the IEC external auditors, during February 2013. B = The approved 2013 Budget, as previously approved by both ExMC and CAB and in current use for 2013. C = The 2014 initial budget figures as agreed during the 2012 ExMC Calgary meeting (ExMC/787/CD extract) D = The 2014 reviewed Budget amounts as the proposed final budget for 2014, taking into account the 2012 end of year results.

## Values in Column D of Annex A are now submitted for final approval.

In accordance with the IEC Finance Department, this budget is presented as a balanced budget.

While ExMC have considered a preliminary Draft 2014 budget during the Calgary 2012 ExMC meeting, (Values from ExMC/787/CD and listed in Column C of Annex A) the Treasurer and Secretary have reviewed these values for a final draft 2014 budget Colum D in light of

- The 2012 final end of year figures, as finalized by the IEC external auditors
- Concerns surrounding the current world economic environment
- No proposed increase to either Current fees for both Annual Dues and Certificate related Fees.

Items in Column D identified in **red text** show those items for which the Treasurer and Secretary have revised following end of year 2012 results, resulting in very minimal overall change to the draft preliminary 2014 budget detailed in ExMC/787/CD.

Prudent financial management of the IECEx has resulted in IECEx achieving and maintaining a solid and sound financial position, including the end of year results to achieve a solid IECEx General Reserve at end of 2012 now at **CHF 999'983.** being 114% of the annual Operating Costs as at 2012

The management and control over IECEx operational expenditure has resulted in IECEx yet again continuing to keep operating expenditure below 2012 budget. A copy of the auditor's report of the 2012 IECEx Accounts will be circulated to Members, once available from the auditors. In the absence of an auditors report, amounts listed in Column A of Annex A contained the values approved by the Auditors.

The previous IECEx decision to move more towards a user pay system via certificate fees have resulted in **zero** increase to annual fees for the past **12 years** with a small **decrease** approved by the IECEx Management Committee applied from 2010.

While there is general industry acceptance for a "user pay system" via certificate fees, there is also an industry expectation that the IECEx Schemes continue to be supported by prompt and professional service with a solid technical base.

While the IECEx Equipment Scheme is now entering its 10<sup>th</sup> year of operation, the issuing of Certificates maintains healthy and sustained annual growth rates with figures at end of January 2013 continuing this trend. While this trend continues, even into January and February 2013, it is expected to continue and even increase as we see new IEC SC31M Non Electrical Standards being integrated into the IECEx System. New IECEx WG15 will hold their first meeting in March in UK to commence this work.

Therefore in summary the updated 2014 Draft Budget, (Column D of Annex A), provides:

- A Total income of CHF 1'243'000
- A Total Operating costs of CHF 1'067'500
- A budgeted contribution to the IECEx General reserve of CHF 175'500.
- Any additional surplus to be added to the General Reserves

As discussed during the ExMC Calgary 2012 meeting, the increase in expenditure caters for the appointment of additional Technical Staff, now appointed (Mr Mark Amos as announced to ExMC) to cater for increased workload and promotional activities arising from the new IECEx Schemes, e.g. Certified Service Facilities and Certified Persons Scheme plus growth in the existing Certified Equipment Scheme, with inclusion of ISO Standards applicable to the Ex field and the introduction of IEC Standards covering non electrical Ex equipment, re new IEC SC 31M Technical Committee.

Of course, as with all expenditure, the monthly accounts are kept under close scrutiny and any downward movement in income results in reviews of expenditure.

The 2010/2011 formal endorsement of IECEx by the United Nations, via the UNECE is seen as adding further growth to existing as well as new IECEx Schemes.

The notes below provide details to the individual budget items.

### **General Note**

Drafting of the initial 2014 Draft budget, detailed in ExMC/787/CD for the 2012 ExMC Calgary meeting and included as Colum C to Annex A of this Budget, was done so using a conservative approach taking into account the world economic environment and in the absence of the 2012 accounts. In finalizing the proposed 2014 Budget (Colum D), the Treasurer and Secretary propose to maintain this approach, while recognizing the success and growth of the IECEx Schemes especially in the new areas of Service Facilities and Certified Persons.

As the 2014 Draft Budget is being prepared at the beginning of 2013, the actual end of year figures for 2012 are used as a guide to develop this Draft 2014 budget along with the Approved 2013 Budget.

A complete report with audited 2012 accounts, once available from the IEC external auditors, will be circulated to ExMC and presented to the IEC ExMC meeting in September 2013 and then at the 2013 IEC GM, CAB meeting.

Annex B provides an explanation of calculation of the annual dues as at February 2013.

The draft 2014 budget represents a **13<sup>th</sup> consecutive** year of no increase in annual fees.

There is a CHF 50 Invoice fee charged for processing invoices from assessments.

#### 2. EXPENDITURE SUMMARY

The final agreed 2013 budget included provision for additional technical resources both as part of succession planning of exiting IECEx Secretariat resources and general operation of the Secretariat. In noting both the increased growth of IECEx as demonstrated by the 2012 end of year results the additional resources have been realized and appointed in January 2013.

In line with prudent financial management, the budget is subjected to constant on-going review during the operational year, noting that provision is made for downward adjustment of certain items should income levels fall below budget predictions.

#### 2.1 Item 40000 Personnel costs

As stated above, the change to the levels provided in ExMC/787/CD relate to the appointment of new full time Technical Resources during January 2013.

#### 2.2 Item 47100 (Office Equipment)

No change is proposed to that provided for in ExMC/787/CD, and agreed during the ExMC Calgary 2012 meeting, see Minutes ExMC/819/RM,

#### 2.3 Items 47200 (Rent of the IECEx Secretariat Office)

No change is proposed to that provided for in ExMC/787/CD, and agreed during the ExMC Calgary 2012 meeting, see Minutes ExMC/819/RM, This covers the leasing of the IEC Sydney office of the IECEx Secretariat and is a single charge covering the provision of a serviced office. #### 2.7 Item 49000 (Travel and Meeting expenses)

A small upward adjustment to the travel + meeting expenses provides for increased travel demands of the Secretariat.

Travel and meeting costs are associated with travel and accommodation of the Secretariat staff and also meeting costs where applicable.

Where possible, travel of the Secretariat is coordinated with that of other IEC activities, eg IECQ, to share in travel costs in line with the direction of Central Office, e.g. attendance at CAB meetings (2 per year) plus CAB WG meetings etc.

#### 2.8 Item 48500 (Resources for Special Projects)

It is noted that as part of risk management, that the ExMC agreed to maintain a level of General reserve to equate to 2 years operating costs and as reported to ExMC, there is the expectation that this level will be reached during the coming years with ExMC WG13 Business Development to consider proposals after this level has been reached.
