IECEx Certified Service Facilities Scheme –
Part 3: Ex installation and initial inspection

Assessment and Certification of Service Facilities providing
Ex installation and initial inspection service – Procedures

FOREWORD

This Operational Document IECEx OD 313-3 - Operations Manual for the IECEx Certified Service Facilities Scheme – Part 3: Ex installation and initial inspection (“IECEx 03-3 Scheme”) specifies a mechanism for organizations that provide Ex installation and initial inspection services meeting the requirements of IEC 60079-14 and IEC 60079-17 the ability to obtain IECEx Certification under the IECEx System.

A listing of currently approved ExCBs is maintained on the IECEx website: www.iecex.com.

INTRODUCTION

This Operational Document is supplementary to the Operational manuals and procedures operated by IECEx Certification Bodies (ExCBs), approved by the IECEx Management Committee to issue IECEx Certificates of Conformity to Ex Service Facilities providing Ex installation and initial inspection service, according to IEC 60079-14 and IEC 60079-17.

The IECEx Certified Service Facilities Scheme is modelled on the IECEx Certificate of Conformity Scheme, which is an ISO Type 5 Certification System.

The purpose of the Operational Document is to ensure that each ExCB, accepted by ExMC for the purposes of issuing IECEx Certified Service Facility Certificates, processes applications from installation and initial inspection Service Facilities with the same approach and technical or management requirements, known as certifying the IECEx way.

For Ex installation or initial inspection, a certified Ex Service Facility should be capable of installing and inspecting equipment of any Ex type of protection. If not permanently employed, Ex competent personnel for a particular type of protection may need to be engaged for a particular application.

This IECEx OD 313-3 Operational Document comprises the following three Sections:

**Section 1**: Procedures for the issuing of an IECEx Service Facilities Certificate  
**Section 2**: Procedures for maintaining validity of an IECEx Service Facilities Certificate  
**Section 3**: Procedures for the processing of applications for extension of scope to an IECEx Certified Service Facility

The procedures are set out in table form identifying:

- Step number showing the link between flowcharts and table;
- Description of the activity;
- Related documents;
- Responsible person or party;
- Additional comments and remarks where appropriate.

The preparation of this IECEx Operational Document has been done so with the aim of alignment with various ISO or IEC International Standards, ISO Guides, and IECEx Rules of Procedures, including but not limited to the following:

**NOTE** Although this IECEx Operational Document makes reference to IEC 60079-14 and IEC 60079-17, it is also relevant in determining ability to work with other international, national or regional requirements of a similar nature, such as IEC 61892-7 - Mobile and fixed offshore units – electrical installations – Part 7: Hazardous areas.

IECEx 03-0, IECEx Certified Service Facilities Scheme – Part 0: General Rules of Procedure  
IECEx 03-3, IECEx Certified Service Facilities Scheme – Part 3: Ex installation and initial inspection – Rules of Procedure  
IEC 60079-14, Explosive atmospheres – Part 14: Electrical installations design, selection and erection  
IEC 60079-17, Explosive atmospheres – Part 17: Electrical installations inspection and maintenance  
IEC 60079 Series as relevant or as referenced from IEC 60079-14, for example IEC 60079 – Parts 10-1, 10-2, 13, 19, 26, 28, 29-1, 29-4, 30-1, 30-2, 32-1, 43 or 46  
ISO/IEC 17000, Conformity assessment – Vocabulary and general principles  
ISO/IEC 17011, Conformity assessment – General requirements for accreditation bodies accrediting conformity assessment bodies  
ISO/IEC 17020, Conformity assessment – Requirements for the operation of various types of bodies performing inspection
ISO/IEC 17021-1, Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part 1: Requirements

ISO/IEC 17065, Conformity assessment – Requirements for bodies certifying products, processes and services

ISO 19011, Guidelines for auditing management systems

ISO Guide 27, Guidelines for corrective action to be taken by a certification body in the event of misuse of its mark of conformity

ISO Guide 28, Conformity assessment – Guidance on a third-party certification system for products

This IECEx OD 313-3 often refers to IECEx OD 025, Guidelines on the management of assessment and surveillance programs for the assessment of manufacturer’s quality system, in accordance with the IECEx Scheme.

Although this Scheme relates to Service Facilities, many of the elements of IECEx OD 025 are applicable, as such this Operational Document is applicable at a number of steps in this procedure.
Section 1 – Procedures for the issuing of an IECEx Service Facilities Certificate

This Section is to be applied by ExCBs when processing new applications for an IECEx Service Facility Certificate.

These steps are in line with the requirements of ISO/IEC 17065, *Conformity assessment – Requirements for bodies certifying products, processes and services*, in addition to the requirements as laid down in the IECEx Scheme Rules, IECEx 03-3.

This Section also refers to Annex A for the criteria concerning the use of Quality Management System (QMS) assessment and audit results obtained prior to the application for an IECEx Service Facilities Certificate of Conformity.

Annex B contains a checklist of documentation that an IECEx Certified Service Facility should have in place.

Figure 1 shows a broad outline of the processing of applications from an Ex Service Facilities by an ExCB.

Figure 2 shows a flowchart of the processing of applications from an Ex Service Facilities by an ExCB.
Review of the Application from an Ex Service Facility seeking IECEx Certification

Review of the Ex Service Facility procedures for compliance with IEC 60079-14 and IEC 60079-17, as applicable

Conduct On-Site audit of all sites to be covered by IECEx Certification Compile Facility Audit Report, FAR

Conduct On-going Surveillance of the Service Facility Compile Facility Audit Report, FAR

</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td>Step</td>
<td>Section 1 – Procedures for the issuing of an IECEx Service Facility Certificate of Conformity – Description of activity</td>
</tr>
<tr>
<td>------</td>
<td>----------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>13</td>
<td>The Ex Service Facility Audit Report (FAR) shall be compiled by the ExCB. Where serious deficiencies in the Ex Service Facility’s documented Quality Management System (QMS) plans may give rise to non-complying Ex installations or initial inspection or where there are serious deficiencies in the Ex Service Facility’s documentation. These shall be raised by the ExCB as major non-conformances and the applicant Ex Service Facility required to take action to correct this situation (usually by the introduction or amendment of QMS plans), prior to proceeding with the issue of an IECEx Service Facility Certificate of Conformity. The process may only continue where ALL Non-conformances have been closed.</td>
</tr>
<tr>
<td>14</td>
<td>An independent review of the Draft Ex Service Facility Audit Report (FAR) shall be conducted, prior to issue, by the ExCB as a requirement of ISO/IEC 17065 and shall be conducted by ExCB staff not involved in the audit. Where errors are identified, a revised FAR may need to be prepared.</td>
</tr>
<tr>
<td>15+ 15a</td>
<td>Where the independent review raises questions that need to be resolved, these shall be referred to the ExCB for correction or further action.</td>
</tr>

</tbody>
</table>
Section 2 – Procedures for maintaining validity of an IECEx Service Facilities Certificate

This Section is to be applied by ExCBs to ensure that IECEx Service Facility Certificate remain valid.

These steps are in line with the requirements of ISO/IEC 17065, Conformity assessment – Requirements for bodies certifying products, processes and services, and ISO/IEC 17021-1 – Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part 1: Requirements, in addition to the requirements as laid down in the IECEx 03-2 Scheme Rules.

While this Section provides guidance to ExCBs when conducting surveillance audits of Service Facilities, to ensure the on-going credibility of the Scheme it may be necessary for the ExCB to conduct unscheduled visits of the Ex Service Facility, of sample assessment of an Ex installation and initial inspection for serious cases, and noting such instances on the ExCBs files for raising at the next surveillance audit.

At any time during the maintenance of an IECEx Service Facility Certificate, the IECEx Secretariat, Executive and Management Committee are available to provide assistance with the understanding of the process and expectation of outcomes of such surveillance activity.

Certification maintenance comprises the following activities:

a) **Annual site audits** by the ExCB conducted at no more than 12-month intervals with an FAR up-issued at the end of such audit

b) **3 Year Re-assessment** by the ExCB involving both a review of the Ex Service Facility’s documented quality system procedures and a site audit with the FAR up-issued at the end of the re-assessment.

| 7    | The ExCB that issued the IECEx Service Facility Certificate shall conduct an independent review of the prepared FAR. This review shall verify among other items:  
• That a complete audit as planned had been conducted;  
• Necessary documentation and records available;  
• Confirmation that the auditor/team was appropriate, especially where another ExCB is involved in the audit. | IECEx OD 025 IECEx OD 314-3 IECEx 03-3 | ExCB that issued the IECEx CoC | |
| 8, 8a | Where the FAR reveals that the audit was incomplete, not conducted in accordance with IECEx OD 025 or contains errors the matter is to be raised with the audit staff and applicant listed on the IECEx Service Facility Certificate, as appropriate.  
The purpose of the FAR review is for the ExCB to be assured that they have sufficient objective evidence that the Ex Service Facility’s Quality Management System (Ex QMS) and associated quality plans enable Ex installation and initial inspection to be conducted in accordance with the requirements of IEC 60079-14, IEC 60079-17 and IECEx OD 314-3 for the scope listed on the IECEx Service Facility Certificate  
This review may require a revised FAR to be issued or even a subsequent audit of the Ex Service Facility where it is identified that the audit was incomplete or insufficient or unqualified auditor(s) used. | IEC 60079-14 IEC 60079-17 IECEx 03-3 IECEx OD 025 IECEx OD 314-3 | ExCB that issued the IECEx Service Facility Certificate | Where a subsequent audit is required due to errors on the part of the ExCB, such audits may need to be conducted at the ExCB’s own expense. |

| 10, 11 +12 | The ExCB that issued the IECEx Service Facility Certificate shall review proposed corrective actions relating to Non-Conformance Reports (NCRs) in terms of:  
- The time to implement such action is appropriate  
- Whether a follow up audit is necessary or can verification be handled at the next scheduled surveillance audit  
It should be noted that where Major NCRs are raised consideration must be given to the likelihood of non-complying installations. ISO/IEC Guide 27 should be consulted by the ExCB issuing the IECEx Service Facility Certificate. | IECEx OD 314-3 IECEx OD 025 ISO/IEC Guide 27 | ExCB that issued the IECEx Service Facility Certificate | Contact the IECEx Secretariat for any questions or concerns. Normally the FAR is issued to the applicant following closure of NCRs |
<p>| 12a+ 12b | The ExCB that issued the IECEx Service Facility Certificate will need to determine whether the IECEx Ex Service Facility Certificate needs to be suspended or cancelled. Given the seriousness of the situation, prompt action by the ExCB is required. This includes, notifying the applicant listed on the IECEx Service Facility Certificate in writing and amending the status of the “On-Line” Ex Service Facility Certificate to reflect either “Suspended” or “Cancelled” as determined by the ExCB responsible for issuing the IECEx Service Facility Certificate. Where disputes arise that cannot be resolved between the ExCB and Ex Service Facility, such matters may be referred to the IECEx Board of Appeal after exhausting the appeal process of the ExCB, via the IECEx Secretariat. | IECEx 03-3 | ExCB that issued the IECEx Service Facility Certificate | Contact the IECEx Secretariat for any questions or concerns. |</p>

Annex A

Acceptance of quality assessment and audit data obtained prior to the application for an IECEx Service Facility Certificate for Ex installation and initial inspection

A.1 Introduction

This annex sets out the conditions upon which quality assessment data can be accepted for an Ex Service Facility applying for an IECEx Service Facilities Assessment Report (FAR) or IECEx Service Facility Certificate.

A.2 Acceptable use

A.2.1 Acceptance of quality assessment and audit data obtained prior to the acceptance of an ExCB by the IECEx Management Committee

ExCBs may use quality management assessment or audit data obtained prior to the ExCB’s acceptance into the IECEx Scheme only when ALL of the following criteria have been met:

a) Previous audit covered another appropriate service within the IECEx 03 Service Facility Scheme;

b) Quality management assessments were conducted by the ExCB’s personnel with competence required for the IECEx 03-3;

c) No non-conformances were raised at the time of the IECEx Assessment, such that corrective actions by way of new/modified processes or new personnel were required in order to gain acceptance as an ExCB;

d) The ExCB can demonstrate that the general requirements of Operational Document IECEx OD 314-3 have been met; and

e) An IECEx Service Facility Certificate shall not be issued where any major non-conformances, as defined in IECEx OD 025 remain outstanding.
Annex B

Documentation checklist for certification of Ex Service Facility for Ex installation and initial inspection

The following is a list of specific documentation that an Ex Service Facility should have in place in seeking IECEx Certification as an IECEx Certified Service Facility.

Items 2, 3, 4, should be made available to the ExCB prior to the site audit being undertaken.

|1) | Applicant name:  
Date: |
|2) | Ex Service Facility application details as per IECEx 03-2 Clauses 9.2 and 9.4  
Name, Country, Contact details  
Short history, and description of Ex Service Facility  
Legal status  
Addresses where Ex Service Facility carries out its operations that are to be covered by IECEx Certification  
Any other relevant information about the Ex Service Facility |
|3) | Letter or ExCB application form from applicant Ex Service Facility to ExCB requesting certification under IECEx Service Facility Scheme |
|4) | Declaration of relevant competence/capability as follows:  
a) competence of responsible persons and operatives  
b) listing of Ex types of protection and Scope of work to be covered by IECEx Service Facility Certification  
c) Identification of testing and measurement capabilities |
|5) | Documentation, such as Quality Management System (QMS) manual, showing compliance with requirements  
a) compliance of quality systems to IECEx OD 314-3  
b) compliance of Ex Service Facility to technical requirements of IEC 60079-14 or IEC 60079-17  
This information may be provided during the on-site assessment, however the application should indicate what information is available |
|6) | Organization charts of the candidate Ex Service Facility  
Particular attention should be given to those authorized to release completed work |
|7) | Ex Service Facility procedure for maintaining competence of responsible persons and operatives |
Section 3 – Procedures for the processing of applications for extension of scope to an IECEx Certified Service Facility

This Section is to be applied by ExCBs when processing applications for a change to IECEx Service Facility Certification, including extension to the scope of an IECEx Certified Service Facility.

These steps are in line with the requirements of ISO/IEC 17065, Conformity assessment – Requirements for bodies certifying products, processes and services, in addition to the requirements as laid down in the IECEx 03-3 Scheme Rules.
Receive Application from IECEx Service Facility for Scope Extension

Conduct contract review

1.

Assess Service Facility Procedures for compliance with OD 015 (Document Review) in accordance with Section 1 of this Document

2.

ExCB determines whether or not a dedicated site audit is necessary

3a.

Amend IECEx "On-Line" Certificate to show extended scope

12.

Amend surveillance program to include extended scope

13.

| 2    | ExCB that issued the IECEx Service Facility Certificate shall conduct a contract review to determine, among others, that:  
• The application is within the scope of the IECEx Scheme  
• All necessary information has been provided by the applicant  
• The requested changes, including new scope of Ex installation and initial inspection is within the scope of the ExCB  
• Consideration of sites to be covered | ExCBs own Quality Management System (QMS), IECEx 03-3 | ExCB that issued the IECEx Service Facility Certificate | |
| 3    | The ExCB shall inform the applicant of these results and shall record the contract review outcomes within their documented record system.  
Where unsuccessful, the ExCB shall inform the applicant and the applicant to determine the next course of action if any. | IECEx OD 314-3 (Ex QMS), IECEx 03-3 | ExCB receiving the application | |
| 4    | A document review shall be conducted by the ExCB receiving the application, in accordance with the procedures detailed in Step 4 of Section 1 of this Operational Document.  
A FAR shall be compiled where the extension of scope application relates to an Ex protection technique not already covered by the existing IECEx Certification.  
In such cases, only the section relating to the Ex types of protection under the scope extension needs to be completed. | IEC 60079-14, IEC 60079-17, IECEx OD 314-3 (Ex QMS), IECEx OD 025 | ExCB | |
5  The findings of this document review shall be retained on the ExCB’s documented record system for future reference.  

6  A final certification review shall be conducted in accordance with the requirements detailed in Section 1 of this IECEx OD 313-3 Operational Document. 

7  The ExCB that issued the original IECEx Service Facility Certificate shall determine whether or not a site assessment visit is necessary before issuing a new issue of the IECEx Service Facility Certificate. Such items that influences the ExCB’s decision include: 
- Whether the change is regarded as administrative, e.g. name change with no change to the Quality Management System (QMS); 
- Whether the extension is to cover the installation and initial inspection to activities outside their existing scope covered by the existing IECEx Service Facility Certificate; 
- Whether the application for scope extension is to include a new or additional location; 
- Whether the change to certification includes changes to the nominated Responsible Persons and Operatives; 
- Others.

It is expected that where new locations are to be added or an Ex Service Facility has changed their location, that the ExCB conduct a site assessment, to ensure the on-going capabilities of the Ex Service Facility. 

8  The ExCB shall record the decision from Step 7 in their record document system. 

9  Site audit visit in accordance with the procedures and steps detailed in Section 1 of this Operational Document, including the method of reporting.
| 10 | The ExCB shall record the site audit visit in accordance with the requirements of Section 1 of this Operational Document. Where the results of the site audit visit are unsuccessful, the applicant shall determine the next course of action which shall be either the corrective action to address non-conformances or re-submitting an application. | IECEx OD 314-3 (Ex QMS) IECEx OD 025 | ExCB that issued the IECEx Service Facility Certificate | Contact the IECEx Secretariat for any questions or concerns. |
| 11 | Where the results of the site audit are unsuccessful the matter shall be reported to the applicant who shall determine the next course of action which shall be either the corrective action to address non-conformances or re-submitting an application. |  | ExCB and Applicant | |
| 12 | A new issue of the certificate is issued by the ExCB responsible for issuing the original certificate, in accordance with the procedures detailed in IECEx OD 011-3 | IECEx OD 011-3 | ExCB that issued the original IECEx Service Facility Certificate. | |
| 13 | The ExCB shall amend their surveillance program to ensure that the changes covered by the new issue of the IECEx Service Facility Certificate are covered on future surveillance visits. |  | ExCB that issues the IECEx Service Facility Certificate | |
